

Checklist handrails with e-li

Before ordering, check the following points and call our distributor with questions at **+44.1949 843020** or contact him at **handrails@kapok88.com**

MEASURE

Use the measurements at the construction site and use the order forms:

- Which handrail type is required (e.g. straight or bent)?
- Enter the dimensions of the handrail into the form
- Which accessories are required (e.g. rosette, installation tool, etc.)
- Enter required number of pieces
- Take precise dimensions in mm

INFOGRAPHIC

The infographic includes three diagrams of handrail configurations with dimensions Y1, X1, X2, X3, Y2, and Z. Below the diagrams is a table for selecting options:

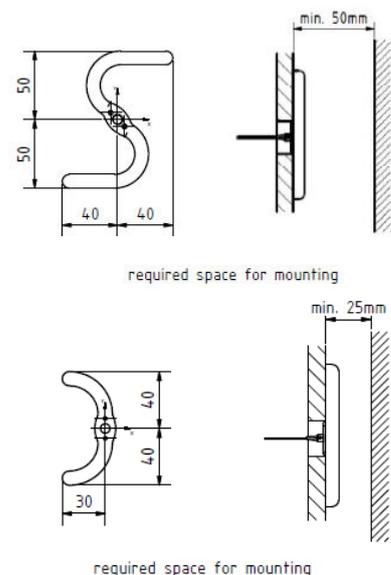

material		mounting tool		cabin wall protection	
<input type="checkbox"/> Ø35mm	<input type="checkbox"/> 17,3mm	<input type="checkbox"/> 14.301 grain 240	<input type="checkbox"/> Yes	<input type="checkbox"/> none	<input type="checkbox"/> click-on rosette
<input type="checkbox"/> Ø38mm	<input type="checkbox"/> 22,5mm	<input type="checkbox"/> 14.301 grain 600	<input type="checkbox"/> No	<input type="checkbox"/> plastic shim sleeve	
<input type="checkbox"/> Ø40mm					

Additional options for Strong S and Strong C are provided. A small diagram shows the mounting detail with dimensions A, B, C, D, E, and F. The text 'All specifications are stated in mm.' is present.

Straight handrail with e-li
 Order number:
 Commission number:
 BeLi logo and contact information: Tel: +49(0)671-37047, Fax: +49(0)671-391436, e-mail: info@beli-gmbh.de

Check the space in the shaft and on the rear cabin wall:

- If, for example, a U-profile or a arrester frame profile is mounted on the rear cabin wall?
- Depending on the space requirements, order the S-shaped or the C-shaped model from strong spine.

Miscellaneous

Check the status of the cabin walls and plan in for further e-li mounting brackets and accessories! Ensure there is a tool for handrail installation (e.g. stepped drill bit TiN coated Ø 20 mm).
